

Founded in the 1930s in Porto, Portugal, by Camilo De Sousa Mota, CSM quickly became one of the most dynamic and specialized construction companies in the industry.

In Brazil, CSM Construções Ltda. was established on June 24, 2002, expanding its expertise across multiple engineering disciplines, including:

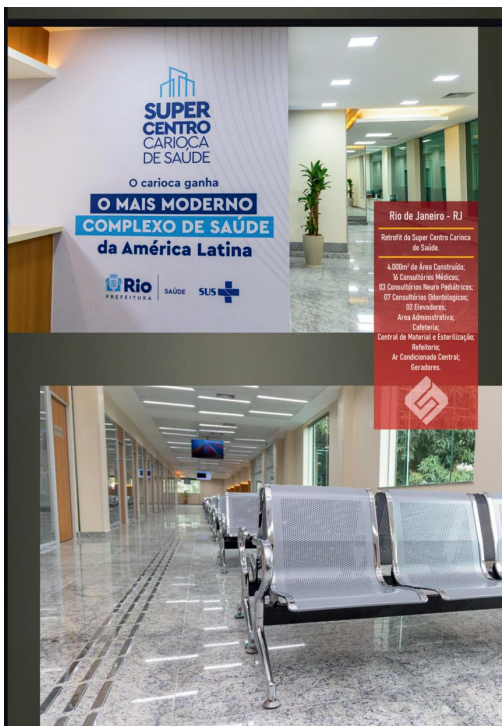

- ✓ Civil, electrical, environmental, and mechanical engineering
- ✓ Consulting and real estate development
- ✓ Building maintenance and industrial rope access
- ✓ Hospital infrastructure services

As part of the CSM Group, the company extended the legacy of Camilo Sousa Mota & Filhos S.A., which had already been leading major public works projects in Portugal while expanding its international presence in Brazil and South Africa.

With over two decades of experience in Brazil, CSM has built an impressive track record in infrastructure projects, including:

- 🏗️ Bridge construction and road paving
- 🏠 Sanitation and urban development
- 🏢 Commercial, residential, and industrial buildings
- 🔧 Renovations and building maintenance

By combining technical expertise, innovation, and a commitment to quality, CSM continues to be a trusted leader in the construction and engineering sectors.
