

DESAM – DESENVOLVIMENTO DE ASSISTÊNCIA MÚLTIPLA DESAM is a non-profit organization founded on May 23, 1998, with the mission of managing projects that combine technical excellence with meaningful social impact.

DESAM has a team of highly qualified professionals with extensive experience in service management across various sectors, including healthcare, social assistance, education, sports, consulting, logistics, finance, and technology.

Projetos:

Buzão do Bem

The "Buzão do Bem" social assistance project, developed within the Unified Social Assistance System (SUAS), is a specially adapted bus designed to provide socio-assistance services focused on Special Social Protection of Medium Complexity.

Its mission is to welcome, guide, and support families and individuals who are at personal or social risk, experiencing homelessness, or facing violations or threats to their rights. Through this initiative, those in vulnerable situations receive proper assistance, orientation, and referrals to ensure their protection and well-being.

Cozinhas Comunitárias

This project is carried out in partnership with civil society and the municipal government of Rio de Janeiro, ensuring operational and technical support for fifteen community kitchens.

The initiative aims to provide nutritionally balanced meals to individuals in extreme poverty, helping to reduce food insecurity and improve the well-being of vulnerable populations.

Neighborhood	Total Meals Served
Realengo	229.081
Vila Kennedy/RJ	195.006

SUBEM

We provide administrative management services for units operated by the City of Rio de Janeiro, through the Subsecretariat for Animal Welfare.

Our services cover Fazenda Modelo and Minicentros, offering veterinary consultations, spay/neuter procedures, and animal sheltering.

Key Numbers from This Project:

- 📌 50,408 veterinary consultations
- 📌 43,205 spay/neuter procedures

Zoonoses

This project involves the management, operation, and execution of services for:

- ✓ Emergency veterinary care units
- ✓ Specialized veterinary outpatient clinics
- ✓ Sheltering of domestic animals

It is implemented within the Veterinary Medical Assistance Units of the Municipal Institute for Sanitary Surveillance, Zoonosis Surveillance, and Agricultural Inspection (IVISA-RIO) through a Collaboration Agreement between the Municipal Health Department and Civil Society Organizations. This initiative ensures universal and free veterinary assistance for the population of Rio de Janeiro.

Locations of Veterinary Units:

- 📍 Jorge Vartsman Veterinary Medicine Center – Mangueira
- 📍 Paulo Dacorso Filho Zoonosis Control Center (CCZ) – Santa Cruz
